

LOSS CONTROL SERVICES

A SAFER WORKPLACE.

Be one step ahead and protect your company against injury or accidents. Core Specialty helps you minimize the frequency and cost of injuries in your work place through risk assessment and reporting, supervisor training and easy-to-access claims information. Fewer workplace injuries result in lower workers compensation insurance premiums and Core Specialty offers Loss Control service to customers as part of our comprehensive Workers Compensation cover.

According to Occupational Safety and Health Administration, having a plan in place has been shown to reduce on-the-job illness and injury by as much as 40 per cent. We support our clients' commitment to safety and assist by minimizing risks and exposures, and ensuring the processes are in place to prevent incidents.
